PRETTY PDFS WITH QUARTO

Quarto

Quarto enables you to weave together content and executable code into a finished document. To learn more about Quarto see https://quarto.org.

Running Code

When you click the **Render** button a document will be generated that includes both content and the output of embedded code. You can embed code like this:

```
1 + 1
```

```
[1] 2
```

You can add options to executable code like this:

```
[1] 4
```

The `echo: false` option disables the printing of code (only output is displayed).

Some long text

Lorem ipsum odor amet, consectetuer adipiscing elit. Commodo etiam tristique tempor nibh praesent laoreet. Suspendisse iaculis magnis vehicula pharetra praesent auctor pulvinar.
